CAREER ACCOMPLISHMENTS

- Successfully built Engineering and Product teams from scratch, within hiring plans while maintaining white-glove service and a 95%+ close rate.
- Built automated reporting and dashboards for Hiring Managers, Talent Teams and Executives to quickly and seamlessly see the state of hiring funnels.
- Mentored and developed junior Talent Team members on hiring processes, and educated business leaders on closing candidates and selling equity.

PROFESSIONAL EXPERIENCE

Weights & Biases

Weights & Biases is a Series C startup that helps AI developers build better Machine Learning (ML) models faster. Users can quickly track experiments, version and iterate on datasets, evaluate model performance, reproduce models, and manage ML workflows end-to-end.

Lead Technical Recruiter

January 2023 - June 2023

- Successfully executed hiring 'to plan' throughout my tenure at W&B, establishing teams in Finance, HR, Product Management, Product Design, and Software Engineering. Achieved 62 hires in 1.5 years with an exceptional 96.8% closing rate.
- Developed automated reporting and dashboards for swift insight into hiring funnels for Hiring Managers, Talent Teams, and Executives.
- Led the W&B Talent Team, overseeing 2 Recruiting Coordinators, 2 contract Sourcers, and contributing to the growth of the non-technical recruiting team.
- Cultivated strong relationships with the Finance department to align our hiring processes with budgetary constraints.
- Acted as an equity and company valuation expert, regularly conducting training sessions for Hiring Managers and business leaders.
- Continued to chair the DEI&B Committee, driving comprehensive changes in the organisation to enhance hiring processes, education, and team inclusivity.

Senior Technical Recruiter

March 2022 – January 2023

- Utilised diverse candidate sourcing techniques, including Google boolean searching, LinkedIn, referrals, Angellist, and networking.
- Fostered strong relationships with candidates and Hiring Managers, emphasising clear communication, leveraging internal tools and metrics for decision-making.
- Oversaw the full recruitment cycle, from sourcing to offer, encompassing skill evaluation, interview coordination, reference checks, salary recommendations, and a proactive "always be closing" approach.
- Founded the DEI&B committee to drive comprehensive organisational improvements in hiring processes, education, and team inclusivity.

Technologies used: LinkedIn, Google Boolean Search, Wellfound (formerly Angellist), SourceWhale, HireEZ (formerly Hiretual), Lever.

Candidates placed / Area of focus: AI/ML Engineers, Product Managers, Front-End Engineers, Backend Engineers, DevOps Engineers, Site Reliability Engineers, UI/UX Designers, HR Business Partners, Accounting and Finance
